

Gifted and Talented at South Grafton High School

South Grafton High School students have a proud history of high achievement. Our top performers have gone on to study Medicine, Law, Engineering and other prestigious subjects at the top Australian universities on the basis of their excellent HSC results. South Grafton High School has for many years successfully prepared students for the most challenging and highly regarded HSC courses such as English Extension 2, Mathematics Extension 2 and History Extension.

The names of our many students who have achieved outstanding awards can be seen on the honour boards in the school hall. We hope that in seven years' time the name of your son or daughter will also appear on those boards as one of the highest achievers in SGHS and also in the state.

Achieving top grades in the HSC is dependent not only on hard work and ability, but also on excellent teaching and opportunity. We believe that at South Grafton High School we give our students the best opportunities to excel academically and socially. If your son or daughter is ambitious and aspires to achieve their best then this is a possible path they could take through South Grafton High School.

Year 5 and 6 The Clarence Science Initiative (CSI)

The CSI program has been running for 15 years and has inspired a succession of students to further their interest and achievement in Science. Students who attend the CSI program have the opportunity to get to know the staff and facilities of South Grafton High School and are well placed to achieve a place in the Platinum class when they join Year 7.

The Platinum Class.

The Platinum class is a further evolution of our highly successful Self Select program. Students who are successful in their application to join the Platinum class will initially be placed in a class composed of others who have shown excellent achievement in their junior school and have additionally committed themselves to working hard and showing the best attitudes to study.

Entry to the Platinum class is based on three criteria:

- The student's commitment to working hard.
- Recommendation by the Principal of their Year 6 school.
- Performance in an aptitude test.

Each year we receive more applications than there are places in the Platinum class so SGHS will use the results of the aptitude test to distinguish between applicants who have been placed equally on their study commitment and recommendations from their present school. Those who are unsuccessful in their application are placed on a waiting list to join the class when a place becomes available.

Placement in the Platinum class is subject to regular review. Students who do not demonstrate adequate progress towards achieving the outcomes of each course will have their place reviewed and may be moved from the program.

The Platinum program covers all subjects other than Mathematics. Mathematics runs a separate assessment test to select students for the A course which is used to prepare students for the HSC Mathematics Extension 1 and Mathematics Extension 2 courses.

Please fill in a declaration of interest form if you would like to be sent an application form for the Platinum class.

Self Select 2021 - 2023

Following on from the Platinum program in Year 7, your son or daughter may wish to continue in the Self Select classes in 2021 as they start Year 8. Most students in the Year 8 Self Select classes will be those that have successfully completed Year 7 in the Platinum program, however; we expect there will be others who have shown the personal qualities that are prized in the Platinum program and will be given a place in the class. Those that do not continue to fulfill the criteria will be given a place in a class that better suits their needs.

Talia Rose ATAR 99.05

Throughout their years at South Grafton High School your son or daughter will be given numerous opportunities to engage with the best across the state in all areas of academic and practical studies, sport and social development. Opportunities for Gifted and Talented students at SGHS this year have included the Maths Olympiad, chess club, interschool titration competition, Accelerated Hospitality HSC, participation in local area and state sport and representing the student body on the School Representative Council.

HSC 2024 -2025

By now your son or daughter will have benefited from four years of our best teaching and will be well placed to choose from our wide range of HSC courses. We would hope that your son or daughter will have made the most of all that SGHS has to offer and will have developed into a happy, well rounded and socially confident individual. Whilst many Year 11 students are still deciding their future career path, we hope that your son or daughter will take full advantage of our highly knowledgeable careers staff as they choose the courses that will offer the best opportunities to study the

subject of their choice at university.

Our record of academic success at South Grafton High School proves that we have high quality teachers that are skilled in successfully guiding the most talented students to achieve their potential.

There are many factors that lead to success including talent, opportunity, direction, social support, determination and hard work. If you choose South Grafton High School you can be assured you will have given your son or daughter access to some of the best opportunities for success.

To apply

- 1) Fill in the application form on the next few pages and send it to South Grafton High School.
- 2) When we receive a completed application form, the Principal of your child's present school will be asked for a recommendation.
- 3) The aptitude test will be held in Term 3. The date will be determined in consultation with your child's existing school.
- 4) Parents will be informed of the outcome of the application at the start of term 4.

Nomination For The Platinum Class

To gain entry into the Platinum class in Year 7 students need to complete an application package that includes:

- Latest NAPLAN results
- Latest School Report
- Completed nomination form

To be nominated for the 2020 Year 7 Platinum class your child needs to return their completed application package to South Grafton High School before Friday 24th May 2019. This is an administrative deadline so we are able to accept applications after this date if places remain in the class.

A panel will review each application and successful students accepted into the Platinum Class will be notified in writing.

Students should understand that to maintain their placement in the Platinum class their attitude to class work, discipline, homework and teamwork is to be exemplary with positions to be reviewed at the end of each term.

South Grafton High School
